

Adding to 10, 1 More and 1 Less! Kindergarten)

Student Edition (Preschool and

Adding to 10, 1 More and 1 Less! Student Edition Engaging and comprehensive lessons: Lesson 121 MAKING 4 Objective: The student will be able to make a quantity of 4 using counters of two different colors. Count forward beginning from a given number within the known sequence (instead of having to begin at 1). Lesson 122 MAKING 5 Objective: The student will be able to make a quantity of 5 using counters of two different colors. Lesson 123 MAKING 6 Objective: The student will be able to make a quantity of 6 using counters of 2 different colors. Lesson 124 MAKING 7 Objective: The student will be able to make a quantity of 7 using counters of 2 different colors. Lesson 125 MAKING 8 Objective: The student will be able to make a quantity of 8 using counters of 2 different colors. Lesson 126 MAKING 9 Objective: The student will be able to make a quantity of 9 using counters of 2 different colors. Lesson 127 MAKING 10 Objective: The student will be able to make a quantity of 10 using counters of two different colors. Lesson 128 1 MORE Objective: Understand that each successive number name refers to a quantity that is one larger. Lesson 129 1 LESS Objective: The student will be able to tell what number is one less than the given number. Identify whether the number of objects in one group is greater than, less than, or equal to the number of objects in another group, e.g., by using matching and counting strategies. Lesson 130 ASSESSMENT FOR LESSONS 121 TO 129 Objectives: To assess the objectives learned in Lessons 121 to 129.
