

Eyebrow Shaping & Colouring To Suit Face Shapes: Take Years Off Your Face With The Correct Eyebrow Shape & Colour

As a retired Beauty Therapist that worked in the industry for over 50 years I now write book to assist others. This book covers the main face shapes and all the do and do nots about shaping eyebrows to suit the main face shapes. I have included the basic information about hair styles to suit face shapes. A section covers colour/tinting and bleaching eyebrows with step by step instructions. What eyebrow colour will suit the different hair colours has also been outlined. All my books have been tested on my students. Their feedback has enabled me to imagine you are trying to teach yourself the beauty industry trade and do not have any one to help you. The right types of wax for facial waxing and the types of wax you should not ever use on the face. We only get one face in our life time we cannot buy a new one so we need to know how to enhance our beauty without expensive cosmetic surgery. As beauty school training is over and done with so very quickly these days it is hard to retain all that you learn. Furthermore there is often some subjects that are glossed over as there are not enough hours in a day for your teacher to get you through within six months to a year. If you learn to improve on at least one section of eyebrow enhancement then this book has done you well and will be money well spent. And while i am alive and kicking you will find I am only an email away from assiting you.
