

Froggy Learning Math Multiplication - Numbers 1 through 10 This Froggy Learning Series contains addition flash cards for the numbers 1 through 10 Examples: $4 \times 1 = 4$ $8 \times 8 = 64$ $10 \times 10 = 100$ This book contains five hundred math questions and their answers. My children have enjoyed mastering math using these Froggy Learning flashcard books and I invite your children to do the same. The Froggy Sight Words and Flash Card series of Learning Books offers children a unique method of allowing them to practice and learn without risk of memorizing the order of the list. The questions and answers are randomly placed on the screen, so that they appear to dance around the page. After every ten math questions your child is rewarded with a cartoon picture. Also look for other Froggy Learning books..

Froggy Fry High Frequency Sight Word List (12 volumes) Froggy Dolch Sight Words (7 volumes) Froggy Math Addition (4 volumes) Froggy Math Subtraction (4 volumes) Froggy Math Multiplication (3 volumes) Froggy Math Division (3 volumes) Froggy Flashcards: US State Capitals and Abbreviations (2 volumes) Thank-you for taking the time to help your child learn. You are doing a wonderful thing. By working through this book from start to finish you and your child will master this level of math. Each group of 50 questions are separated into one of ten math sets so you can treat this book as if it were ten sets of flashcards. Helpful Hints: 1. Feel free to change the font size if you wish. Since most of the words are short, increasing the font size while using this book might make the words and numbers easier to read. 2. Make this time a fun experience for your child. Let them hold the book and teach them to turn the pages on their own. Thank-you from Froggy Learning
