

Interpretive Perspectives: A Collection of Essays on Interpreting Nature and Culture

This collection of essays represents some of the best work of two significant, contemporary voices in the field of interpretation, including original pieces written for this publication and reprints of articles that have appeared in National Association for Interpretation publications spanning three decades. Whether you are new to the field or an experienced interpreter, you will be inspired by Larry Beck and Ted Cable's unique ability to find interpretive lessons in tangential fields, beauty in the everyday, and hope in the future.
