

Frequently Asked Questions About Doctoral Research into Higher Education (Volume 5)

Updated for 2016 with new questions and web resources, this book asks and answers questions that doctoral researchers into higher education frequently have. It covers different aspects of the research process, from formulating research questions to convincing examiners of the robustness of the study. The book will be of value to anyone doing a doctorate in the area of research into higher education, whether by independent research or through a doctoral programme.
