

Building English Skills

Building English Skills is aimed at students and teachers, would-be teachers, and those called to teach English while living in a country where English is not the first language. It has 32 lessons in 3 graded units with texts based on Bible stories and characters. Together with the texts are dialogues, vocabularies, questions and notes for those using this book. The notes and suggestions for the use of this book are for help to those who may not be teachers in a formal sense but who, with adequate English will also be able to use this book to good effect teaching students. The book is written mainly in British English.
