

Dare To Dream Dare To Fail: The Cliff Riders on The Longest Mile

DARE TO DREAM DARE TO FAIL is a book written on the canvas of arguably a very difficult endeavour undertaken by a team of three die hard adventurers - that of bettering an existing Guinness World Record of the highest altitude reached by a motorcycle. But the expedition itself is just a backdrop. The trials and tribulations that the team went through in putting the expedition together and the importance of NEVER GIVING UP despite the odds that were stacked against them brought philosophy into the lives of the adventurers. This book is a journey into the minds of the team and the never-say-die attitude that they embodied during the course of this expedition. As Chandan, the Expedition Leader likes to repeat, It is better to have tried and failed than not having tried at all. That is the message that this book is all about - Never giving up when the world tells you to.
