

Using the Standards - Problem Solving, Grade 8 (100+)

Empower students to build new mathematical knowledge, solve problems in context, apply and adapt appropriate strategies, and reflect on the problem solving process with these reproducible worksheets. The content in this book supports and is divided by the NCTM content standards: number and operations, algebra, geometry, measurement, and data analysis and probability. Timesaving teaching aids such as skill checks and cumulative tests are included along with an NCTM correlation chart, pretests, answer key, and vocabulary cards.
