

The Argument Builder, Teachers Edition

The Argument Builder: Teachers Edition includes the entire student text, answer keys to exercises, teaching tips, and reproducible tests and quizzes. The Argument Builder is the ideal companion to The Art of Argument. Where The Art of Argument enables students to find and identify fallacies in various kinds of writing and speech, The Argument Builder focuses on enabling students to actually build compelling and persuasive arguments of their own. The Argument Builder is a blend of logic and rhetoric. Students first study the logical structure of good arguments and then study how to use several lines of argument (a.k.a., the common topics), such as the use of examples, analogy, comparison, testimony, and statistics. The text comes in a workbook format with plenty of exercises to ensure students learn to become skilled argument makers! Classical Academic Press Educators will find all curricula by Classical Academic Press to be created with four important attributes. Each product is classical, creative, relevant, and easy to use. As our company name implies, you will find that we publish classical books and media, seeking to acquaint students with the best that has been thought and said. We also design and present our products with creativity and zest, from beautiful illustrations to engaging storytelling, ensuring that the classical subjects being taught are anything but boring. Areas we publish in include: -Latin -Ancient Greek -Logic -Bible, Old & New Testament -The Art Of Poetry -Spanish -Classical Education Resources
