

The Open World University: Higher Education in the Information Age

The Internet has the potential of becoming a medium for Platos World Academy in the Open World, whereby the world, as the body of wise men and their students, participates in the buildup of one Global World Civilization. Platos Academy was a medium for discussion and argument of a wide curriculum on great ideas on human existence; wise men presented their wisdom soon thereafter to be attacked by other wise men and students that, in turn, were also attacked and so forth. Students were listening and learning, sometimes asking questions or questioning, or both. The final product of their openness and friendly critique in their dialogues, conversations, and debates was the intellectual basis for the development of Western Civilization.
