

## Learn Colors With Birds: A First Colors Book For Children (A Kids Discovery Series)

Teach your preschool child colors and encourage learning while reading and having fun together with Learn Colors With Birds (A First Colors Book For Children) . Learn Colors With Birds uses pictures of birds to illustrate a rainbow of colors. Clear word labels are included with the pictures to encourage further learning. In addition to colors (including red, green, blue, orange, yellow, purple, pink, black, and white), Learn Colors With Birds includes a color coding of the word with the color of the bird to help a child draw the connection. At the end of this first colors book, there is a match the color words to the birds game, for practice recalling. Develop your child's early learning with Learn Colors With Birds, specially designed to captivate a preschooler's attention while laying a foundation for learning.
