

## Writing For Success

Visual and structural aids for teaching comprehensive paragraph and essay writing for students of all grade levels. The writing strategy is the result of a necessity for a teaching strategy that organized thoughts and helps the student shape the essay. Simple enough to be used in the lower grades and can also be made to be as complex as demanded by grade level or ability level. It can be used across the curriculum to teach reading skills as well as Social Studies, Science, and even Art. The two strategies that I am presenting needed to cover a wide range of ability levels. They do just that. They can be used in a variety of ways and span many grade levels. My students in the fifth grade were successful using this teaching strategy in writing stories and essays. Their confidence level was much enhanced by their ability to compose an essay and receive a high grade. Since writing is assessed on many standardized tests, an effective teaching method is essential. Writing for Success is that teaching tool!
